STITCHING INSTRUCTIONS

This ornament is for young children who are learning to do needlework. It is worked on **7 mesh plastic canvas** using knitting yarn and a size 16 tapestry needle.

Stitch the design as shown, approximating colors with yarns you have on hand. Cut the ornament to shape along the lines as shown in the pattern, add a loop of yarn at the top for hanging.

To finish the back, trace the shape of the ornament onto self-stick felt, attach, and you're finished. Alternatively, you could cut a piece of Christmas fabric and attach with white glue.
